Realise Energy Services is a leading supplier and installer of new or pre-owned wind turbine solutions from 200kW to 2MW. We have a long track record and extensive experience in helping to develop sites for landowners, businesses, public organisations and communities.

We are dedicated to providing high quality, professional services to supply and install reliable and effective wind energy solutions. We assess the market thoroughly and select wind turbines we consider "best of breed" and work directly with end customers to turn their wind energy ideas into reality. We also work closely with other renewable businesses – financiers, developers and consultants.

If repowering a site, we can decommission and remove your old turbine, and then supply, install and maintain new or pre-owned wind turbines. Our solutions realise attractive returns through the installation of profitable wind assets and enable clients to control their energy costs whilst strengthening their green credentials.

Realise Energy Services:

- Operation and Maintenance
- Monitoring and control
- Major Component Repairs and Replacement
- Retrofits and Upgrades
- Inspections
- Wind Turbine Sales, Supply and Installation
- Decommissioning
- Repowering and Replacement
- Project and Asset Management

Whatever the scale of your requirement, we can offer strong engineering expertise, quality equipment and turnkey solutions, including project and asset management services. We will look after your investment for many years to come.

Founded on real engineering expertise and experience

With Mechanical, Electrical and Hydraulic expertise in house, technical specialism has always been an integral part of our service. We have an in-depth understanding of the effectiveness of available wind turbines and how to secure optimum performance.

Trained technicians ensure optimal performance

All our wind turbines are designed, supplied and installed for optimum performance. Systems are tailored to your site and energy demands and we supply an accurate quotation for your exact circumstances.
